YARDMASTER ULTRA

**Premium pneumatic tires for lift
and shift solutions**

ATG

**BETTER VALUE.
SMARTER CHOICE.**

ALLIANCE | GALAXY | PRIMEX

Why Yardmaster Ultra

High tread depth for superior Life

Strong casing with stiff sidewalls
for maximum load stability

Wide profile providing optimal
traction

Use of premium cut & abrasion
resistance compound

Available with tube & flap

YARDMASTER ULTRA meets requirement of a forklift in round the clock operations where cushioned ride is important

Why Yardmaster Ultra

Industrial Flooring (Concrete etc)

Paved surfaces

Tar surfaces

Uneven surfaces

Designed for different demanding surface conditions seen in the industry

Why Yardmaster Ultra – Suitable Applications

Warehouse Operations

(Smooth concrete surface with a requirement of maximum stability / minimum deflection of tire)

Loading / Unloading operations

(Damaged concrete surface in combination with metallic ramps creating demanding conditions)

Shop-floor Operations

(Concrete surface + debris + obstructed aisles which damage tire sidewalls)

Port and Yard Operations

(Paved / Tarred abrasive surface creating demanding conditions for tires)

Uneven Surface operations

(Outdoor applications characterised by moderately uneven surfaces)

Heavy Duty
> 16 Hrs Op

Medium Duty
8-16 Hrs Op

Light Duty
1- 8 Hrs Op

How – Features & Advantages

Wide Tire Profile

Increases lateral load stability & traction

Large Industrial Block Pattern

To increase life of the tread while promoting superior grip

Smooth Flat Tread

Flat tread radius for even wear on hard surfaces.

Strong Casing

Pneumatic ride comfort strengthened by stiff sidewalls to provide required stability in operations

Maximum protection from damage

Large *tread block* pattern coupled with *fortified sidewall construction*, protect the tire where it is most required

Superior life

Maximum tread for long lasting tires

Premium offering – Pneumatic tire

GALAXY – YARDMASTER ULTRA

GALAXY YARDMASTER ULTRA - SIZES

- Galaxy Yardmaster Ultra provides a complete range of Premium Pneumatic tires for Forklift equipment

- It offers features like superior life & traction, stability of equipment and cushioned ride while working on hard Industrial surfaces in 3 shift operations where uptime is critical

- Yardmaster Ultra is the perfect solution for use on heavy forklift equipment which may also be used outdoors where shock absorption by tires is critical in preventing equipment damage and operator discomfort
