# G-3000 G2/L-2

G-3000 is designed keeping in mind the needs of machines like grader and telehandler carrying out construction and agriculture applications. The strong nylon carcass construction provides high stability and load carrying capacity required to perform these operations. The special tread design with more rubber at the centre combines great riding comfort with longer tire life. The open shoulder with ideal lug spacing ensures high traction and excellent self-cleaning. Sizes are also available in Heavy Duty variants. These sizes have specially formulated weather resistant compound which gives additional protection from environmental wear and longer tire life.
